

Virginia Nurseries List

This list is provided by the Virginia Native Plant Society (VNPS)
400 Blandy Farm Lane, Unit 2, Boyce, VA 22620. (540) 837-1600.

To the best of our knowledge, the following nurseries do not dig plants from the wild to sell. Plants are propagated from nursery stock or responsibly collected seeds. Please report any infractions to this policy. The VNPS does not endorse or recommend any individual nursery and is not responsible for the accuracy of claims made by the organizations included in this listing. Email vnps.org@gmail.com. Website www.vnps.org.

Nursery Name & Contact Info	Specialty	Plant Source or Origin	Other Info

Izel Plants www.izelplants.com No physical location; online purchases only.	We are an online retailer. We sell plants from a list of over 700 species native to Virginia, all of which have detailed information online, including growing characteristics and requirements, descriptions, cultivation advice, maps of native range, taxonomy, legal status, and more. What is available at any given time, depends on the season. We can satisfy wholesale orders on select species, without minimum order requirements or specific account set-ups. We will also custom grow species upon request.	All plants are ethically propagated from mid-Atlantic sources including collected seed, divisions, and cuttings depending on the species.	ONLINE ONLY. Contact Amada McLean at Amanda@izelplants.com . We have a unique model within the native plant industry. By creating a marketplace for nurseries who do not otherwise have an internet presence, we can offer a wider selection of locally native species than can any single nursery. This includes, annuals, biennials, ephemerals, shade to sun wildflowers, wetland plants, grasses, sedges and rushes, trees and shrubs, and many rare species from various ecotypes.

Nursery Name & Contact Info	Specialty	Plant Source or Origin	Other Info
